

## Mansion in May 2006 — Ross Family Farm

Basking Ridge, New Jersey

Davies Associates designed a peaceful garden and sitting area for this Mansion in May site, overlooking a small stream and waterfall below the historic farm house. The garden incorporates colorful perennials and sculptures. There is a fieldstone seat-wall surrounding the bluestone patio which overlooks the garden, the waterfall, and a custom wooden bridge. This garden provided a lovely place to relax after touring this mansion in Basking Ridge.
