

Mansion in May 2003 — Cross Estate

Bernardsville, New Jersey

This design integrates Mrs. Cross' interest in naturalistic, English garden style with the crosswalk concept. This is expressed symbolically through the use of a Celtic cross in the site layout and as a sculptural focal point. This garden room will serve as an entry courtyard for Mansion visitors. It will give them guidance, embrace them in an elegant setting and provide a gateway through which one can glimpse the landscapes beyond.
